

## **self-swabbing kits for covid testing?**

**Q.** How can care homes order further self-swabbing kits for covid testing?

**A.** Care homes should register for retesting here <https://www.gov.uk/apply-coronavirus-test-care-home>, as soon as possible. Note even if you previously registered for whole home testing when it was first made available, you will need to re-register on the portal to receive regular retesting.
